SKYLINE Elevators: A Growing Presence in the Saudi Market Since 1975

About SKYLINE

SKYLINE Elevators is a leading company in the elevator industry, headquartered in the Kingdom of Saudi Arabia. With over 46 years of experience, SKYLINE has established itself as a reliable and trusted provider of elevator solutions.

Since its founding, SKYLINE has been committed to delivering the highest quality products and services to its customers. This dedication has earned the company a reputation as a leader in the field, with a track record of more than 30,000 successful elevator installations.

SKYLINE's team of expert technicians is dedicated to providing the best possible customer service, with a focus on safety and reliability. The company's comprehensive range of services includes installation, maintenance, repair, and modernisation of elevators, as well as design services for new projects.

In addition to its local operations, SKYLINE has a strong presence in the Saudi market, with a growing list of satisfied customers in cities around the Kingdom. The company's commitment to innovation and excellence has made it a preferred choice for both residential and commercial projects.

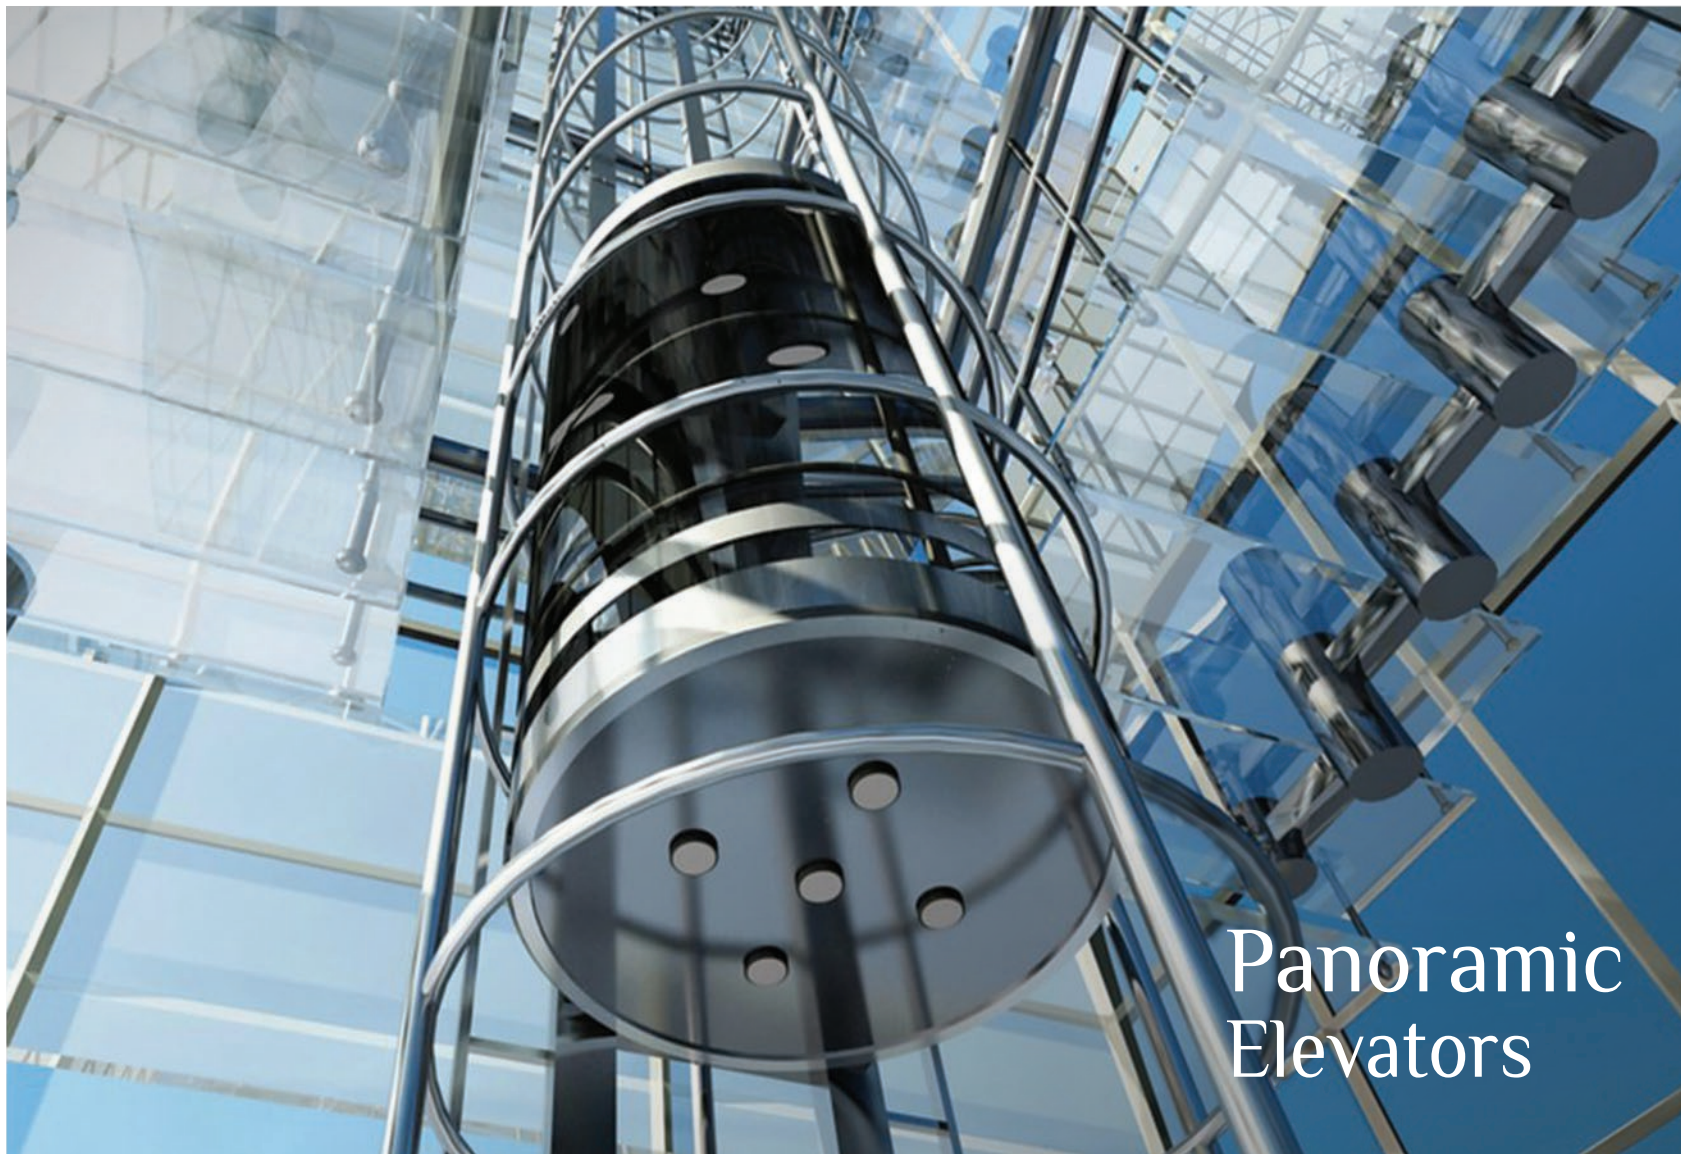

With its dedication to quality, customer satisfaction & commitment to safety, SKYLINE Elevators is the go-to choice for all your elevator needs in the Saudi market.

The elevator market in Saudi Arabia is expected to experience significant growth in the coming years. With the country's expanding construction industry and increasing demand for modern, high-quality buildings, the demand for elevators is expected to rise.

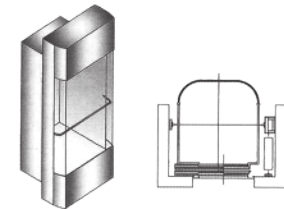

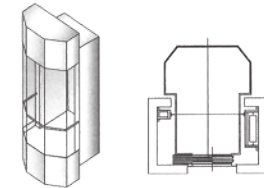

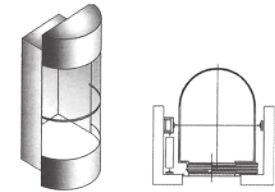

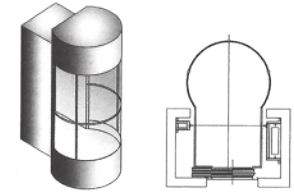

According to industry experts, the Saudi elevator market is expected to reach a value of \$1.6 billion by 2024, representing a compound annual growth rate of 6.9% between 2019 and 2024. This growth is driven by several factors, including the construction of new buildings, the need to upgrade and modernise existing elevators, and the increasing popularity of high-rise buildings.

In the Saudi market, SKYLINE Elevators are making a significant impact, offering high-quality products and services to meet the growing demand.

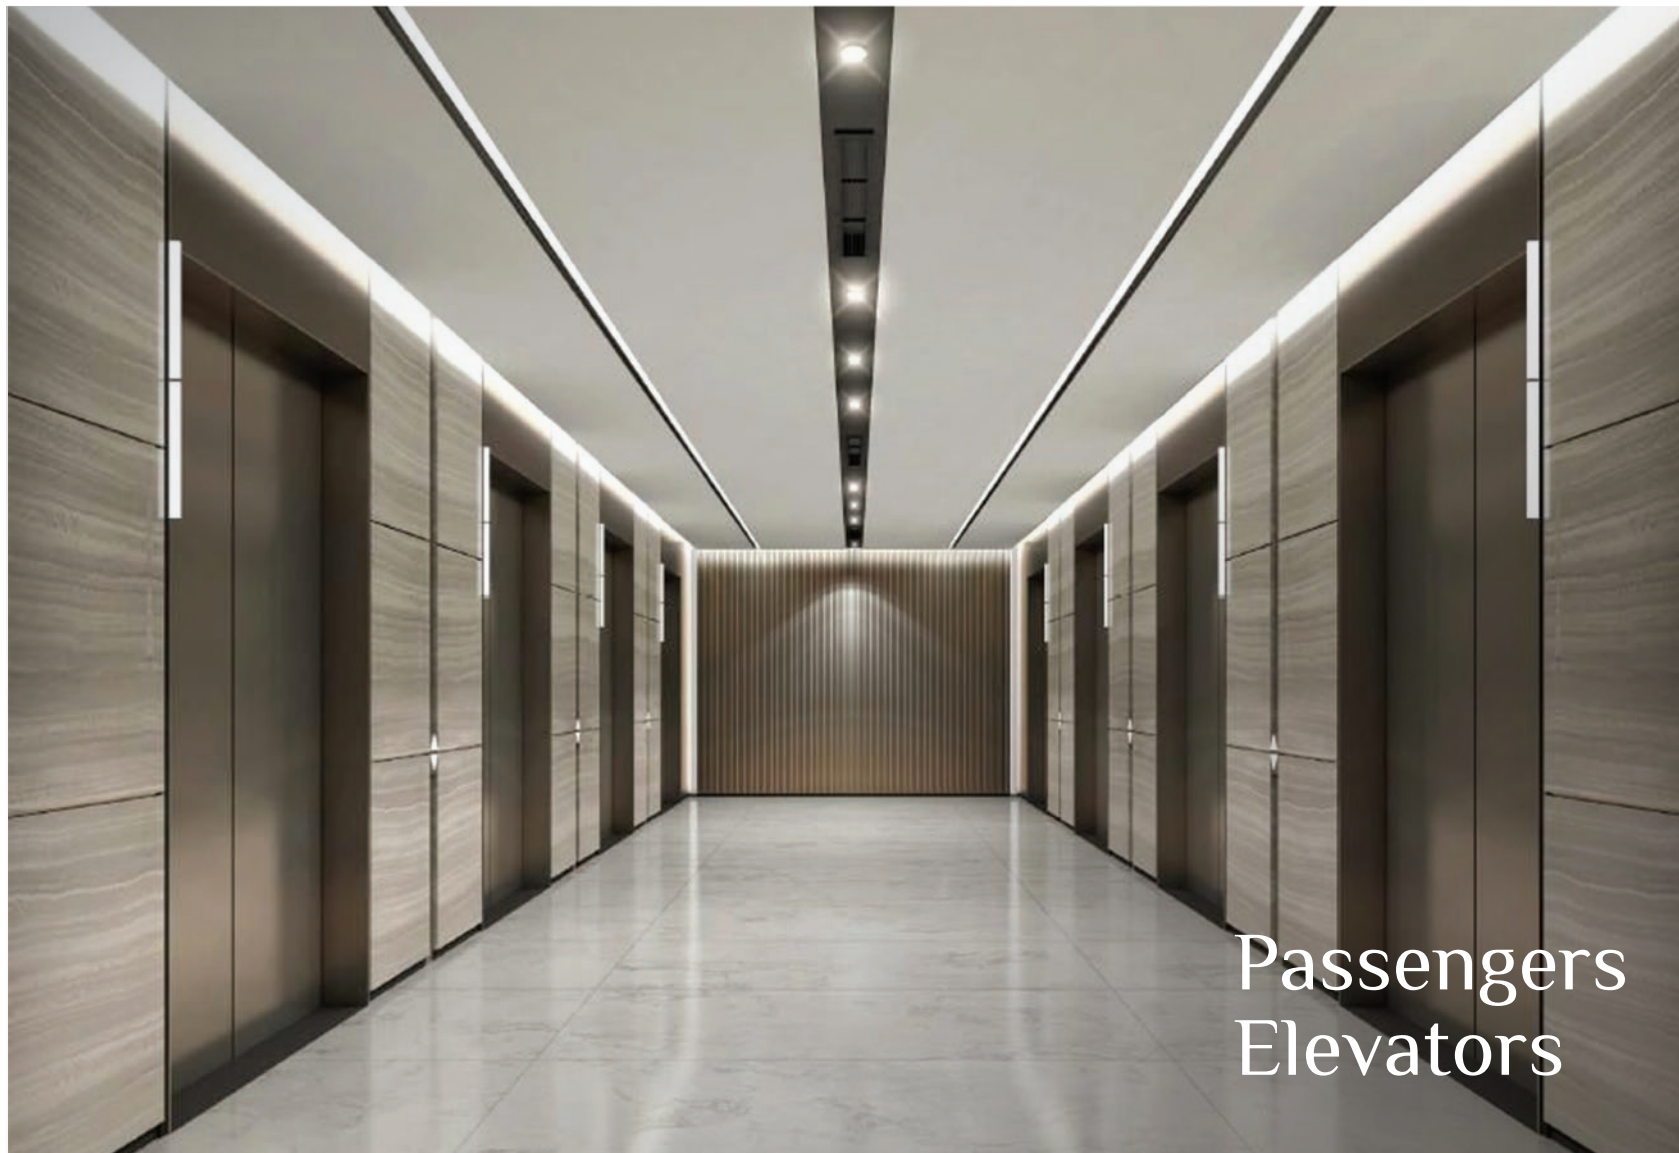

Panoramic
Elevators

"Panorama Elevators: A Revolutionary Concept in Elevator Design"

Panorama elevators are a revolutionary concept in the elevator industry, offering a unique and innovative experience for riders. These elevators feature walls and ceilings made entirely of glass, providing a stunning 360-degree view of the surrounding area.

"Experience the Smooth, Quiet, and Efficient Lift of Machine-Room (MR) Traction Elevators

DESIGN
G181

DESIGN
G182

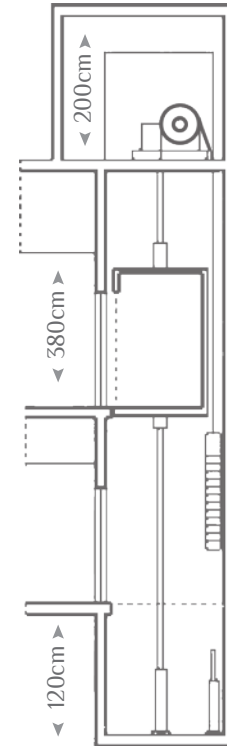

Machine-Room (MR) Traction Elevators Are known for their quiet operation, durability, and energy-saving capabilities. These elevators are designed based on the specific needs of the client, ensuring that they meet all requirements and provide a smooth and efficient ride. One of the key features of gearless elevators is their use of permanent magnet motors, which provide a more powerful and efficient lift while also reducing noise levels, making them highly durable and reliable. Overall, they are a great choice for anyone looking for a quiet, efficient, and long-lasting elevator solution.

USE:

- Commercial & Residential
- Medium-rise buildings
- Private housing

SPECIFICATIONS:

Load : 1250kg - 450kg
Capacity : 3-15 people
Max height : 100 meter
NO. of floors : up to 25

"Revolutionizing the Elevator Industry

" Experience The Space & Money Saving With Machine RoomLess (MRL) Elevators"

DESIGN
G183

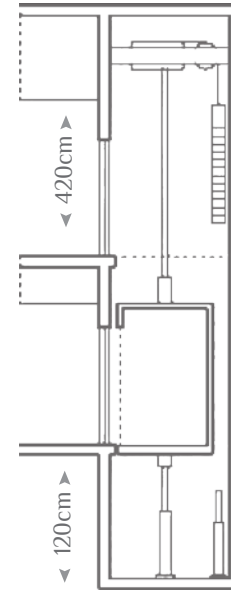

DESIGN
G184

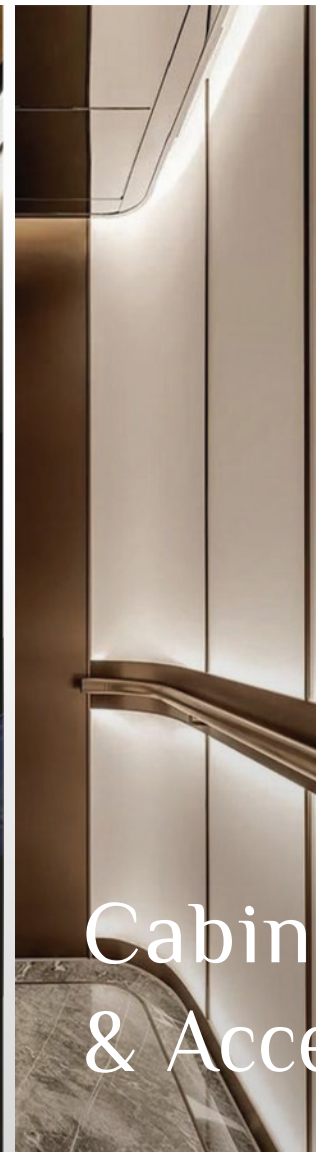

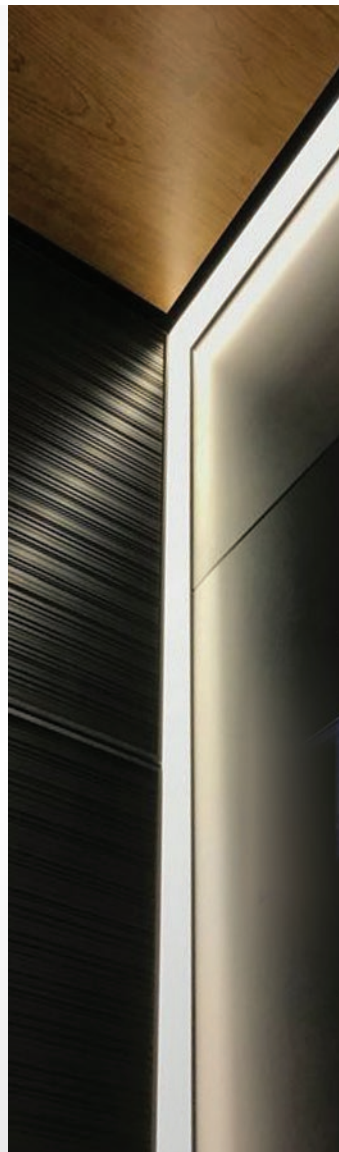

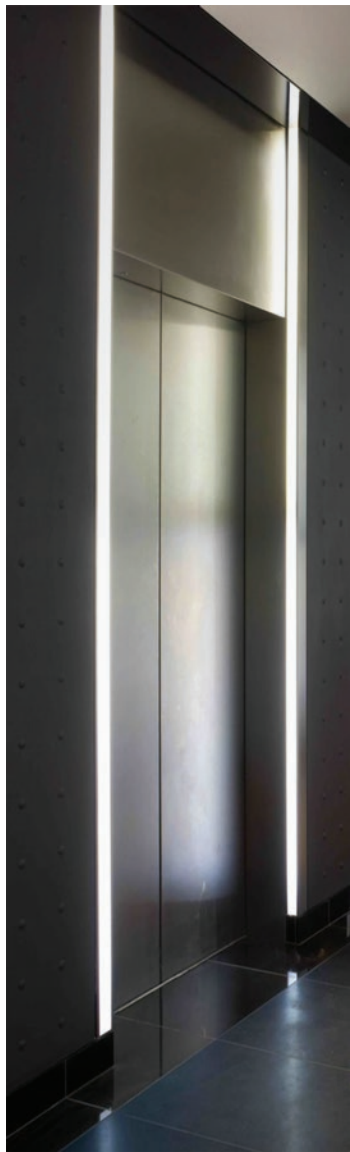

Machine RoomLess (MRL) Elevators
Are a cost-effective and space-saving
solution They operate without the need for
a gear room, which means that they take up
less space and require less maintenance.
This not only saves money on construction
costs, but also allows for more usable
space within the building.
Additionally, gearless elevators are known
for their smooth and quiet operation,
making them a popular choice for
residential and commercial buildings.
